# NOSIPHO HLONGWANE

FRONT-END DEVELOPER
Johannesburg, South Africa
nhhlongwane91@gmail.com Github: Website:

## SUMMARY

A front-end developer, with a strong foundation in HTML, CSS, and JavaScript, recently completed the SheCodes Bootcamp. Detail-oriented and passionate about creating responsive, visually engaging user interfaces. Eager to apply newly acquired skills, solve real-world problems, and continue learning in a fast-evolving tech landscape.

## PROJECTS

Learning lab
- Built a phonics learning lab, allowing users to learn phonics and build a vocabulary of first words. It also has short stories that new English learners can listen to to understand words, I have made the app easy for kids to use and understand.
- **Tech Stack : React, TailwindCSS, AI.**

Routinely
- This App is a routine setter app, that allows users to set their to do list, set reminders, write notes and time themselves doing tasks.
- **Tech Stack : HTML, CSS, JavaScript.**

Avid Book Reader (Book Club website)
- Built a website for a fake book club, emulating a platform where users can check online the dates of the book club and RSVP online, they can also go to the platform to buy books and accessories for books.
- **Tech Stack : React & Bootstrap.**

SheCodes Portfolio
- This portfolio comprises of all the projects I have done under the SheCodes bootcamp
- **Tech Stack : HTML, CSS and Javascript.**
